CONCERNS AND COMPLAINTS

We received thirty concerns and four complaints in 2021. We addressed all but one concern within the time our standards allow. In one instance we missed acknowledging the communication within two business days; however, we were able to address their concern within our four-week standard of providing a full response. As in the past, most came from members of client co-ops and concerned the governance or management of their co-op. We were able to resolve 32 per cent of these concerns and complaints. In the most cases, especially when the concern was related to governance or management, we referred the complainant to their co-op board or to a regional or national co-op housing federation, if the co-op was a member.

SHARING INFORMATION

In 2021, we met all our information-sharing standards 97 per cent of the time.
